PROFILE

Highly motivated BTech student in IoT, Cyber Security, and Blockchain Technology Engineering at VVIT Guntur, with **expertise in MERN Stack development** and strong hands-on experience in building end-to-end full-stack applications. Passionate about leveraging technical expertise in cybersecurity and system design to develop innovative solutions for real-world challenges.

EDUCATION

Vasireddy Venkatadri Institute of Technology

B.Tech in Computer Science (CIC) | CGPA: 8.94

2023 – Present

Nambur, Guntur

Sri Chaitanya Junior College

Board of Intermediate (MPC) | Percentage: 97.2%

2021 – 2023

Guntur

ZP High School

SSC | Percentage: 97.0%

2020 – 2021

Pedakakani

PROJECTS

CampusConnect 🌐 🌐 | Team project, React, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Redis, Vercel, Render, Cloudinary

Developed a secure, high-performance campus digital hub featuring a rich Medium-style content editor, interactive article feeds built with React, automated NLP auto-tagging, and secure JWT authentication via HttpOnly cookies. Optimized application throughput and minimized search latencies by integrating a Redis caching layer alongside high-efficiency database queries. Engineered a mechanized Git-driven CI/CD pipeline utilizing self-hosted GitHub Runners, Docker containerization, and an Nginx reverse proxy for zero-downtime deployment to AWS EC2.

MoodMap 🌐 | React, Tailwind CSS, FastAPI, MongoDB Atlas, Groq API, Google Places API, Cloudinary, Docker, Vercel, Render

Developed a location-aware emotional wellness platform utilizing a Groq-powered LLM pipeline to classify free-text moods and algorithmically map them to nearby locations via proximity-ranked geospatial queries. constructed an asynchronous FastAPI and MongoDB backend featuring secure HttpOnly JWT authentication and a systematized Dockerized GitHub Actions CI/CD pipeline for zero-downtime deployment to Render and Vercel.

Online Railway Reservation System 🌐 🌐 | React, Tailwind CSS, Vite, React Router, Glassmorphism UI

Designed a high-fidelity, responsive booking dashboard using React, Tailwind CSS, and Context API featuring glassmorphism design layouts, micro-interactive inputs, and real-time client-side multi-attribute filtering. Enhanced advanced interactive components including an intuitive seat map simulator, custom horizontal journey timelines, and multi-mode authentication portals with fluid skeleton shimmer transitions.

VIRTUAL INTERNSHIP

SmartBridge Educational Services Pvt.Ltd.(APSCHE) [Certificate]

May 2026 – Aug 2026

Artificial Intelligence and Machine Learning Virtual Internship

- Completed a 2-month Virtual Internship, gaining foundational knowledge in Artificial Intelligence, Machine Learning, data analysis, and real-world AI application development.

Eduskills Academy [Certificate]

Aug 2026

MERN Full Stack Development With Project

- Completed an 8-week internship in MERN Full Stack Development, gaining hands-on experience in React, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, Tailwind CSS, Git, and full-stack application development.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, SQL, HTML, CSS, Solidity

Frameworks & Libraries: React.js, Node.js, Express.js (MERN), Tailwind CSS, Mongoose

Databases & Caching: MongoDB Atlas, MySQL

Tools & Security: Git/GitHub, JWT, VS Code, Postman

Core Concepts: DSA, Computer Networks, Operating Systems (OS), DBMS, Cyber Security, OOPs

CERTIFICATIONS

- AWS Academy Graduate - AWS Academy Cloud Foundations , 2026 *
- Practice Java - CodeChef , 2026*
- Quantum Fundamentals & Advanced Algorithms – Amaravati Quantum Valley, 2026 *
- Joy of computing using Python - NPTEL, 2025 *

AWARDS

2nd Prize – CodeSwap, VIVINYA 2K25

16/10/2025

Organized by IEEE (College-Level Technical Event) *
